

# adrekiyo's asset guidelines / terms of service

## general:prohibited / NG

- > using my assets for commercial purposes (i.e. use as part of a model commission or use in paywalled assets.) **using my assets in showcases for paywalled content is fine (such as motions or poses on patreon), so long as you aren't selling my assets themselves.**
- > using my assets without credit.

## tda:prohibited

- > **using my tda edits without crediting tda.**
- > using my tda edits in ways that violate tda's rules (i.e. use in r18 material, commercial use).

note: tda's rules only apply to my from-scratch assets (hair, clothing, accessories) **when they are on a tda model. transplanting my assets to non-tda models negates tda's rules.**

**please translate this as you will. i'm only providing english and a machine translated japanese section.**
